Subject P2 Team Meeting Minutes, 04- 06-24
Cc sandra.jacobson@grc.nasa.gov

At 1000 on June 24, 2004, the Pollution Prevention Team met in Building 6, Room 147.

Attendees B. Hodgson, P. Kennedy, M. Kenzig, C. Myers, D. Papcke,

At the last meeting, Ron Palyu of TLR Innovations, Inc. gave a presentation on spark plug tip design. Two EMO employees volunteered to have modified spark plugs installed in their cars as test cases. One found that his mileage had been *reduced*.

D. Papcke also tried out the new plugs plus wires and a distributor cap on a 1999 Dodge Caravan. About 24 mpg for 3000 miles. Since there were no previous data for comparison purposes, those results were inconclusive.

M. Kenzig provided a summary the affirmative procurement visit made by KSC representatives last week. Topics of discussion included affirmative procurement policy, charter, and purchases.

M. Kenzig requested that P2 Team members assist her in the formation and action of a recycling sub-committee.

W. Kocher and L. Sekura attended the Innovation Through Sustainable Design Workshop in Falls Church, Virginia.

The next meeting is scheduled for 1000 on July 8.
